Profile

I am a skilled Front-end Developer with four years of expertise in utilizing Angular and creating dynamic and responsive web applications. I have a strong understanding of front-end development principles, coupled with a keen eye for design aesthetics. My deep understanding of HTML, CSS/SCSS, JavaScript/TypeScript, and Angular allows me to create clean and well-structured code. I am driven by curiosity, continuously exploring new ideas and staying up-to-date with the latest advancements in Angular. Passionate about front-end development, I strive for excellence, deliver top-notch results, and take ownership of my work. I am committed to lifelong learning, constantly improving my skills, and taking responsibility for my tasks and projects, ensuring high-quality outcomes.
